

We Changed Our Name!

Notice something different? That's right... no more Propellerhead hat or name!

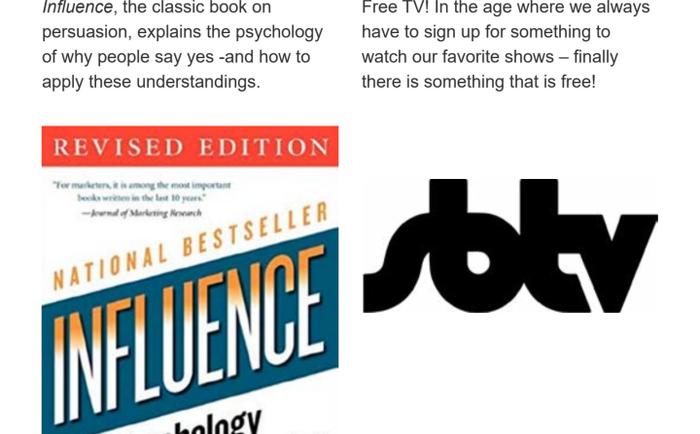

We are now Bits, Bots, and Bytes. Love it? We do, too! Don't worry—our content will still be the same fun and interesting material, but we had a very important reason for the change.

We tried. Really, we did! We promise! We wore the propellerhead hat, but there was a problem—a huge problem. The propeller on the hat made us fly! I know that sounds like fun, BUT IT'S NOT! Imagine just walking along, minding your own business, and a huge gust of air comes along and poof—off we go and who knows where we might end up! We've ended up on top of telephone poles, in trees, flying through different cities, and Scout even ended up in restricted airspace... that one was a doozy.

So, it's time. We retired the hat. Yes, I said it, HAT. At first we thought they were cute and fun, but we began to fear for our lives. As time went on, we kept ending up in different places and we'd had enough. So, we kindly petitioned Dave, "Please don't make us wear the hat anymore." He said yes (especially after the restricted airspace debacle!) We are much more excited to be Bits, Bots, and Bytes!

The Bots- Mic, Speedy, Gearz, Radar, and Scout

BOOK of the month
Influence
by Robert B. Cialdini, PH.D

Influence, the classic book on persuasion, explains the psychology of why people say yes -and how to apply these understandings.

APPS of the month
SBTV

Free TV! In the age where we always have to sign up for something to watch our favorite shows – finally there is something that is free!

Fun Facts About Technology

Learning new information remains a wonderful act, and just like an Hard Disk Drive – our brains are capable of housing mountains of information. (Even when it doesn't feel that way after a long day.)

Did you know...

- ... there are approximately 6000 new viruses released every month.
- ... 28% of IT professionals hide their career from friends and family to get out of giving free tech support (we know we do!)

Here is a [blog post with more fun \(and often humorous\) technology facts.](#)

Spring Showcase 2019

SeaBubbles...flying...boat?

Finally, the time has come for the age of the flying car... oh well that's not right. We were promised flying cars but, as it turns out, flying boats were easier to build. SeaBubbles, an electric powered flying boat recently hit Miami to show off one of it's prototype boats. Find out how SeaBubbles is working toward reducing traffic congestion and helping the environment.

IT'S A VIBE - Open Jam

Calling all music lovers, musicians, singers, and poets for a weekly event that is taking off. An opportunity to play, sing, and network with some of the most talented musicians in the Lehigh Valley.

Kid's Adventure Day

Kid's Adventure Day - Enjoy a Museum Scavenger Hunt and the Kids' Garage & Restoration Center. - Children 12 & under FREE every Sunday.

Most people do not listen with the intent to understand; they listen with the intent to reply.

The Art Of Active Listening

It's absolutely true, listening is an art. And sadly, it has become a lost art. Few actually do it well. It would seem to be a pretty simple concept, but many of us don't give ourselves a chance to listen since we never stop talking. Find out several deterrents that get in the way.
