

## Hi Everyone!

I'd like to start by thanking everyone who came to our Cyber Security Event. We started the day with some real-life examples of how quickly even the most basic hacker can find your password or get you to click on a link. We ended the day with some of the most sophisticated hacking schemes you can imagine.

Our passion to educate people on Cyber Security has prompted us to start a new website. The site will be designed to educate businesses and individuals on ways to keep your electronic data safe. It will also keep you updated with the ongoing changes in the Cyber Security world. The URL is [STOPTHINKCLICK.org](http://STOPTHINKCLICK.org) and it will be available to everyone within 6 months.

Over the next 3 months, we will be beta testing and would love your input. If you are interested in participating, please email me at [hsppear@ezmicro.com](mailto:hsppear@ezmicro.com). The first 50 people that email me will be included in the group.

The beta group will have access to special previews and different tools as well as having input into what content the site will include. Have you ever wanted to know more about a certain subject? This will be your chance to get involved and tell us what you need. We will also be picking 5 lucky people from our beta group who will receive a free STOPTHINKCLICK.ORG mug!

Thank you for assisting us in educating people so we can do our part in the fight against cyber hacking!

Signed

Hillary Spear

### Good to Great

by Jim Collins

For years, this question has preyed on Jim's mind: are there companies that defy gravity and convert long-term mediocrity into long-term superiority? And if so, how? What are the universal characteristics that cause a company to go from Good to Great?

### APPS of the month

#### GrubHub

GrubHub helps you find and order food from wherever you are.

Here's how it works: type in your address and the app locates all of the restaurants that deliver to your location as well as showing you droves of pickup restaurants nearby.

How seriously you're taken

## 10 Things To Never Apologize For Again

"I'm so sorry, but—" isn't polite, it is the introductory phrase of doom.

Apologizing when you haven't made any mistakes makes you look weak and easy to dismiss, not polite.

### Saying sorry too much?

Learn 10 situations when you really shouldn't say it.

# EZ MICRO

My Business Series

## May 30th My Business Series

### Becoming Lazarus:

## Ford's Futuristic Shopping Carts

We've all experienced a runaway shopping cart situation at the supermarket. Ford has been applying its automotive expertise to prevent any unwanted collisions, keeping our grocery stores safe from runaway carts. You'll have to watch the video to find out who is to blamed for all of this mayhem.

## Things To Do

### Southside Arts And Music Festival

Join ArtsQuest for two days filled with visual arts experiences, live music and family programming at the SouthSide Arts & Music Festival. In addition to great live music, the SouthSide Arts & Music Festival showcases visual and performance arts in both expected and unexpected places.

### Step Outdoors Lehigh Valley

Step Outdoors Lehigh Valley, now in its fifth year, is a free family festival celebrating all things outdoors! Filled with hands-on activities and tons of fun, this event is designed to introduce children and their families to the wonders of the world around them. Activities include archery, biking, birding, fishing, hiking, nature photography, visual arts, wildlife presentations and more.

## Tech Pranks Are The Best

A fun office prank never hurt anyone. This one is especially irritating: Make your victim think their computer is constantly loading, when it's really not. Just go to the Control Panel > Mouse > Pointers and change the normal pointer to the working one. Find out what other practical IT jokes you can pull to keep your co-workers on their toes!
